

[PRLog \(Press Release\)](#) - Pasadena, California - December 09, 2010

Mindcoast announced today the launch of a new Affiliate Program that allows individual grant writers to utilize Mindcoast's GrantWave v3 software at no cost and earn commissions up to 40% for securing new customers.

Affiliates are eligible for free access to GrantWave v3 by signing up at least two new clients per year and additionally will receive up to 40% sales commission for each new sale. As first-hand users of GrantWave, Affiliates will be able to demonstrate to potential clients GrantWave's benefits and features, such as the new financial tracking and reporting capability.

"We were contacted by several individual grant writers interested in using GrantWave, but found the one time cost to be a barrier, so we created this Affiliate Program to provide free access to these individuals to enable them to spread the word about GrantWave's robust functionality to the organizations they work for," stated Sascha Koenig, Executive Director of Mindcoast, Inc.

Grant writers interested in GrantWave v3 can checkout a short presentation [video](#) or [download](#) a free, 30-day trial of GrantWave v3.
