

## 6. Budget

---

Funders need to know how and when you're spending their money. GrantWave keeps you ahead of the game with budget tracking and pledge payment components. Link staff, activities, programs, and other items to your budget for up-to-the-minute management and sound stewardship of your donor's funds.

- Assign budget values to staff, activities, tasks, goals, and more for pre-award estimates or post-award management of funds.
- Create budget visuals with a variety of charts; charts can then be stored in or exported to MS Excel or Word for integration into other documents.
- Pledge payment wizard allows easy setup of expected transactions such as number of payments, intervals, and total amount.
- Budget feature is available at all levels of GrantWave - Organization, Programs, and Grants - for comprehensive management.
